Main Advantages:

- Natural color and texture designed to resemble a real putting green.
- 0.5-inch knitted nylon fiber with grooved flat-tape construction.
- Olive and fescue green blend suited to Southwest landscapes.
- Recommended infill range of 1-1.5 lb. per square foot.

Product Notes:

- Manufacturer specifications may vary by +/-5%.
- Warranty coverage is governed by the manufacturer's written terms.
- Final performance depends on proper base preparation, infill and installation.

Artificial grass is made from plastic and should not be subject/exposed to open flames or high heat-producing items.
